ABSTRACT

This survey provides a basis for projecting the availability of trained manpower and for identifying changes in the interests of students in graduate programs. Data are provided on changing trends in enrollment (by field and sex), attendance status (full- or part-time), and state. The report is based on data furnished by 1,091 institutional units and includes all students enrolled in programs leading to a degree beyond the baccalaureate (with certain exceptions). Data are classified into the following categories: attendance status; enrollment level; discipline speciality; type of control (public or private); and type of institution. Appended are a copy of the survey form and accompanying instructions and definitions. (BD)

HIGHLIGHTS

Students Enrolled for Master's and Doctor's Degrees

Enrollments in programs leading to master's and doctor's degrees totaled 1,053,769 in fall 1975, an increase of 9.2 percent over fall 1974 and 89.9 percent over fall 1966.

Full-time enrollments between 1974 and 1975 increased by 5.4 percent, while such enrollments increased by 71.3 percent between fall 1966 and fall 1975.

Part-time enrollments increased by 12.1 percent during the one year, but by 106.0 percent between 1966 and 1975.

Enrollments by sex increased as follows:

Men:	by 7.1 percent between 1974 and 1975, and by 56.3 percent between 1966 and 1975.
Women:	by 12.1 percent between 1974 and 1975, and by 166.2 percent between 1966 and 1975.

Women constituted 42.8 percent of the total in 1975 compared with 41.7 percent in 1974 and 30.5 percent in 1966.

Students Enrolled for First-Professional Degrees in Selected Discipline Specialties

In fall 1975, 234,340 students were enrolled in first-professional degree programs covered by this survey, an increase of 5.1 percent over 1974 and 126.7 percent over fall 1966.

Enrollment of women between 1974 and 1975 increased by 21.2 percent. Between 1966 and 1975, the increase was 829.0 percent.

Enrollment of men during the same periods increased by 1.9 percent and 92.0 percent, respectively.

In fall 1975, women constituted 19.3 percent of the total, compared with 16.7 percent in 1974 and 4.7 percent in 1966.

NATIONAL CENTER FOR EDUCATION STATISTICS

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

FOREWORD

Data for this report were collected as part of the tenth annual Higher Education General Information Survey (HEGIS) in fall 1975. The data were collected as part of the survey instrument "Upper Division and Postbaccalaureate Enrollment by Degree Field, Fall 1975."

This publication provides summary data by State, or other area, institutional control and level, and discipline division and specialty. It is useful in projecting future availability of highly trained manpower and in identifying changes in the interests of students in graduate programs. Institutional listings are not being published this year, but can be reproduced for special studies upon request.

The cooperation of the college and university officials who supplied the institutional reports has made possible a response rate very close to 100 percent. (Only one institutional unit was unable to supply data.) The continued efforts and interest of survey respondents and State coordinators are deeply appreciated.

Theodore H. Drews, Acting Director
Division of Survey Planning and Analysis

Edith M. Huddleston, Acting Chief
Higher Education Surveys Branch

ACKNOWLEDGMENTS

Preparation of a publication of this nature is the result of months of effort by many people. Special recognition is due the following:

Geneva C. Davis, Statistical Assistant, who maintained the control logs and reviewed many tables for completeness and accuracy.

Linda D. Barry and Mary A. Gilbert, who typed and retyped the material into a readable manuscript.

1. Enrollment for master's and doctor's degrees, by level of enrollment, sex and attendance status of student, and control and level of institutional unit: Aggregate United States, fall 1975 22
2. Enrollment for first-professional degrees in selected discipline specialties, by level of enrollment, sex and attendance status of student, and control and level of institutional unit: Aggregate United States, fall 1975 22
3. Enrollment for master's and doctor's degrees, by level of enrollment, sex and attendance status of student, and State or other area: Aggregate United States, fall 1975 23
4. Enrollment for first-professional degrees in selected discipline specialties, by level of enrollment, sex and attendance status of student, and State or other area: Aggregate United States, fall 1975 24
5. Enrollment for advanced degrees, by level of enrollment, sex and attendance status of student, level of degree, and discipline division or specialty: All institutional units, aggregate United States, fall 1975. . . 25
6. Enrollment for advanced degrees, by level of enrollment, sex and attendance status of student, level of degree, and discipline division and specialty: Aggregate United States, fall 1975. 26
7. Enrollment for master's and doctor's degrees, by level of enrollment, sex and attendance status of student, State or other area, and institutional unit: Aggregate United States, fall 1975 32
8. Enrollment for first-professional degrees in selected discipline specialties, by level of enrollment, sex and attendance status of student, State or other area, and institutional unit: Aggregate United States, fall 1975 51
9. Enrollment for advanced degrees, by control and level of institutional unit, and discipline division and specialty: Aggregate United States, fall 1975 61

SURVEY ORGANIZATION AND METHODOLOGY

PURPOSE OF THE SURVEY

Initiated in 1959 to predict trends in availability of manpower in selected scientific fields, this survey now covers all discipline specialties identified in the Higher Education General Information Survey (HEGIS). The major function of the survey is to provide a basis for projecting availability of trained manpower in each field of specialization. Essential data are provided to researchers on changing trends in enrollment, not only by field but also by sex, attendance status (full or part time), and State. Data by sex permit studies of the changing status of women and provide information relevant to compliance with affirmative action plans.

SURVEY UNIVERSE

Institutions included

This report is based on data furnished by 1,090 institutional units, plus data imputed for one institutional unit, for a total of 1,091. (An institutional unit is a separately organized campus or branch, which may be either independent or part of a larger university or a State system.)

The questionnaire "Upper Division and Postbaccalaureate Enrollment by Degree Field, Fall 1975"–part of HEGIS–was sent to all universities and other 4-year institutional units in the higher education universe of the National Center for Education Statistics (NCES) for the 1975-76 academic year.[1] (The questionnaire and instructions to respondents are reproduced in the appendix.)

The 1,091 institutional units were, as far as NCES could determine, the only ones enrolling students for advanced degrees in fall 1975. Of these institutional units–

656 had enrollments for master's and doctor's degrees only;

352 had enrollments for both first-professional degrees and master's and doctor's degrees;

83 had enrollments for first-professional degrees only.

Tables showing candidates for master's and doctor's degrees are based on 1,008 institutional units; for first-professional degrees, on 435 units.

Students included

This survey included all students enrolled in programs leading to a degree beyond the baccalaureate in the same student categories embraced by the 1974 survey. Part A of the survey questionnaire covered students studying for first-professional degrees in selected discipline specialties; Part B, students enrolled for master's and doctor's degrees. (See the section "Survey Coverage" on page 2 of the survey questionnaire, reproduced in the appendix, for a more detailed account of students to be included.)

Students excluded

Student categories excluded from the survey were the same as for the surveys in fall 1971, 1972, 1973, and 1974, namely these–

(1) working for an advanced degree but not formally enrolled for the fall term;
(2) enrolled in a graduate-level curriculums or courses that would not terminate in an advanced degree;
(3) designated as "special" and "unclassified" but not enrolled for an advanced degree;
(4) pursuing postdoctoral work;
(5) enrolled at a branch or an extension center in a foreign country.

A copy of the survey report form and accompanying instructions is in the appendix.

MAJOR CLASSIFICATIONS OF DATA

Attendance Status

Students were classified as either full or part time. As in prior surveys, a full-time student was one whose academic load was at least 75 percent of the normal student workload (course work or other required activity) as defined by the institution. All students carrying less than 75 percent of the normal load were classified as part time.

Enrollment Level

All students were classified as being at either of two enrollment levels: first year: those who had completed less than 1 full year of required study for

---

[1] For a description of the higher education survey universe, see *Fall Enrollment in Higher Education, 1975* (NCES **76-134**). The *Education Directory, Higher Education, 1974-75* (NCES 75-119) was the primary source for the list of units included in the survey universe, supplemented by any changes in fall 1975 known to NCES.

10

an advanced degree, or its equivalent in part-time study, prior to fall 1975; and beyond the first year: those who had completed 1 or more years of required study for an advanced degree, prior to fall 1975.

Discipline Specialty

The classification of discipline specialties follows *A Taxonomy of Instructional Programs in Higher Education.*[2] This was adopted by HEGIS in 1970 and is maintained to provide comparability of data on a continuing basis.

Type of Control

Reporting units were classified as either "public" or "private" according to their classification in the *Education Directory, Higher Education.*[3]

Type of Institution

Selected tables in the report classify reporting units in two categories: "universities," and "other 4-year institutions." Universities are units that place considerable emphasis on graduate instruction, confer advanced as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other units offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year" category.

DATA COLLECTION

A copy of the survey form and accompanying instructions and definitions (see appendix) was addressed to the president of each institutional unit listed in the survey universe, or, in more than one-half of the States, to a State coordinator who supplied the data from information submitted by the institutional units or coordinated the data collection with all or selected institutional units in the State. Followup letters and phone calls were made to State coordinators or institutional officials whose data had not been received within a reasonable period of time after the due date of November 30, 1975.

DATA VERIFICATION

Three methods were utilized to verify the reasonableness of data submitted by each institutional unit:

(1) A computer check for field-by-field comparison with the data submitted for the previous year was made. This procedure checked to determine whether the reported numbers varied by more than a predetermined percentage from the previous year's report. The acceptable difference was based on the order of magnitude of the data-field size: the greater the number of students, the lower the percentage of difference permitted.

(2) Survey forms containing data items identified by the computer check as out-of-range were examined visually by survey personnel to determine whether footnotes, explanatory notes, or readily recognizable human errors accounted for the differences. Where necessary, catalogs of the institutional units were consulted for institutional offerings.

(3) Finally, the remaining problems were resolved by correspondence or telephone contact with State coordinators and institutional representatives.

Internal checks for consistency included the checking of accumulated totals against subtotals obtained from appropriate subsets of the data.

The survey instructions requested institutional units to classify enrollments for advanced degrees according to major field of study and to do so as specifically as the list of specialties in the broad discipline divisions permitted. For example, a student of educational psychology specializing in teaching the mentally retarded should have been reported under "Education of the mentally retarded" (code 0810), rather than under the somewhat broader category of "Educational psychology" (code 0822) or the broadest available category, "Education, general" (code 0801). In practice, however, institutional units can report data only to the level of detail provided in their individual recordkeeping systems. For some individual programs, therefore, readers may observe differences between the categorizations with which they are familiar and those shown in the institutional unit listings.

CURRENT DATA AND RECENT TRENDS

MASTER'S AND DOCTOR'S DEGREE ENROLLMENTS

In recent years three basic trends have been operating: increasing numbers of women, increasing numbers of part-time students, and increasing enrollment in publicly controlled institutional units. Figures 1 and 2 demonstrate the numerical changes in enrollment of men and women, full- and part-time, 1966 to 1975; the more rapid increases in enrollment of part-time students, both men and women, than of full-time students; and the more rapid increases in the enrollment of women than of men. Looking at the most recent years included, the data do not show any changes in the direction of these two trends. We should expect continuing increases in the numbers of women and part-time students enrolled for master's and doctor's degrees.

Table A summarizes total enrollment for master's and doctor's degrees by control of institutional unit. As can be seen from the most recent years, the enrollment at private institutional units as a percentage of the total has stabilized. Unless financial problems force reductions in graduate programs, indications are that privately controlled institutional units should continue to enroll a substantial portion of these students.

Changes in enrollments among first-year students for master's and doctor's degrees paralleled those of total enrollment; that is, women increasing faster than men and part-time increasing faster than full-time. (See table B.) The proportion of women and part-time students is greater among first-year students than among the students beyond the first year, which is to be expected. However, the continually increasing percentage of women and part-time students beyond the first year of graduate work indicates that many of these students are interested in more than a 1-year master's. Other things being equal, those institutions that can accommodate their programs to part-time enrollment stand the best chance of maintaining or increasing their enrollment for master's and doctor's degrees.

On the following pages are tables (C and D) which summarize the changes in total enrollment and first-year enrollment by discipline division, for the past 5 years. No attempt is made here to exhaust the analyses that may be made from these data. What we have attempted below is to point out some of the major trends.

There were five discipline divisions in which the total enrollment declined between 1971 and 1975: foreign languages, letters, mathematics, physical sciences, and social sciences. Declines in four of these areas were also experienced by both levels of students, first-year and beyond the first-year. The exception was social sciences, where students beyond the first year increased while first-year students decreased. Between 1970-71 and 1974-75, the areas of foreign languages, letters, mathematics, and physical sciences experienced declines in the numbers of both master's and doctor's degrees awarded. The enrollment data indicate that such declines in numbers of degrees are likely to continue for at least the next few years. In social sciences the decline in first-year students will probably soon result in a decline in master's degrees awarded; the stability of enrollment of students beyond the first-year should mean a leveling of the number of doctor's degrees in social sciences during the next year or two.

The decline in first-year enrollment in the physical sciences has stopped, at least temporarily, but the declines in students beyond the first-year should result in a continued decline in doctor's degrees in this area. For a comparison with trends in degrees awarded, see: *Earned Degrees Conferred: Analysis of Trends, 1965-66 through 1974-75.*[4]

FIRST-PROFESSIONAL DEGREE ENROLLMENTS

Of the three basic trends in enrollment for master's and doctor's degrees, only the increasing

---

[4] DHEW, NCES (Washington: Government Printing Office, 1975.)

12

number of women is clearly evident among the eight first-professional fields. (See figure 3.) In fall 1975, private institutions enrolled 58.7 percent of students in first-professional programs, the same percentage as in fall 1966. Between 1966 and 1975, part-time enrollment increased by 164.9 percent while full-time enrollment increased by 123.5 percent. However, between 1971 and 1975, part-time enrollment increased by 21.3 percent while full-time enrollment increased by 23.0 percent. (See table G.) Part-time enrollment as a percentage of the total increased from 7.7 percent in 1966 to 9.0 in 1975.

Enrollment of women in first-professional programs shows striking increases. Women students accounted for 4.7 percent of total in 1966; by 1975, 19.3 percent. The numerical change amounted to 40,339, an increase of 829.0 percent, in contrast to a 126.7-percent increase for men. There are no indications that women's interest in first-professional programs is likely to decrease.

1/ STUDENTS WHO HAD COMPLETED LESS THAN ONE YEAR OF REQUIRED STUDY FOR AN ADVANCED DEGREE OR ITS EQUIVALENT IN PART-TIME STUDY PRIOR TO FALL 1975.

Within the individual first-professional fields, enrollment of part-time students is of very little importance in the six health fields. Table E shows the percentage of part-time enrollment in each of these fields in 1966 and 1975.

TABLE E–Part-time enrollment as a percentage of total first-professional enrollment, in six health specialties: Fall 1966 and fall 1975

First-professional specialty	Part-time as a percentage of total	
	Fall 1966	Fall 1975
Dentistry	0.2	0.2
Medicine	0.07	2.8
Optometry	1.0	1.4
Osteopathic medicine	0.0	0.3
Podiatry	0.0	0.4
Veterinary medicine	0.04	3.3

By contrast, the percentages of women enrolled in these six health fields have shown greater increases, although, again, varying considerably by field. Table F compares 1966 with 1975.

TABLE F–Enrollment of women as a percentage of total first-professional enrollment, in six health specialties: Fall 1966 and fall 1975

First-professional specialty	Women as a percentage of total	
	Fall 1966	Fall 1975
Dentistry	1.5	9.7
Medicine	7.3	20.5
Optometry	2.2	10.9
Osteopathic medicine	2.2	10.5
Podiatry	1.3	5.1
Veterinary medicine	8.2	23.5

Medicine and veterinary medicine are the two health specialties with the largest percentages of women and also the highest percentages of part-time students.

As one would expect, these two specialties also have the highest percentage increases in part-time women students. (See table G.) In medicine, women students who are part-time are a smaller percentage of all women (1.3 percent) than men students who are part-time are of all men (2.0 percent). The reverse is true in veterinary medicine. These percentages (part-time) remain so small that we assume they are the result of special situations and not the beginning of a general trend. The nature of the programs in these fields does not lead to a prediction of substantial increases in part-time students in these specialties.

Part-time enrollments in law have historically been larger than in the health specialties. In 1966, part-time enrollment accounted for 15.4 percent of the total. In 1975, however, part-time enrollment accounted for only 14.9 percent of the total. Clearly, law schools are not encouraging part-time enrollment. By contrast, women constituted only 4.3 percent of enrollment for first-professional degrees in law in 1966, but by 1975 they constituted 23.3 percent.

In enrollment for first-professional degrees in theology, both part-time enrollment and enrollment of women have shown increases. Part-time enrollment has increased from 7.3 percent of the total in 1966 to 12.3 percent in 1975. Enrollment of women has increased from 3.0 percent in 1966 to 10.1 percent of the total in 1975. For a more detailed analysis of women in four of the first-professional fields, see NCES publication No. 76-023: *Women's Participation in First-Professional Degree Programs in Medicine, Dentistry, Veterinary Medicine, and Law, 1969-70 Through 1974-75.*

SUMMARY

Enrollments in first-professional fields may be summarized as follows.

1. Women are increasing their percentange of the total enrollment in each of the first-professional fields, and all indications are that they will continue to do so.

2. Part-time enrollments:

   a. account for less than 5.0 percent of the total enrollment in the six health specialties, and there are no indications that these will increase substantially in the next few years;

   b. are higher in law than in any other first-professional field, but have been declining as a percentage of the total law-school enrollment;

   c. have been increasing in theology, and a continuation of this increase seems likely.

3. While the nature of the programs in these eight specialties seems to demand full-time enrollment, it is possible that should demand for entrance to these programs abate, part-time enrollment might become more common. Such a situation appears unlikely in the near future.

[1] STUDENTS WHO HAD COMPLETED LESS THAN ONE YEAR OF REQUIRED STUDY FOR AN ADVANCED DEGREE OR ITS EQUIVALENT IN PART-TIME STUDY PRIOR TO FALL 1975.

[2] ONLY SELECTED FIRST PROFESSIONAL DEGREES WITHIN THE EIGHT PROFESSIONS LISTED OTHER THAN THOSE SPECIFICALLY NAMED IN CONNECTION WITH THOSE PROFESSIONS.

PRESENTATION AND COMPARABILITY OF THE DATA

BASIC TABLES

This report contains 9 basic tables, all directly comparable with the tables in the 1973 and 1974 reports.

Table 1 gives a summary of students enrolled for master's and doctor's degrees, by control and level of institution and type of control.

Table 2 provides similar data for students enrolled for first-professional degrees in selected discipline specialties.

Table 3 shows counts, by State, of students enrolled for master's and doctor's degrees.

Table 4 provides parallel data for students enrolled for first-professional degrees in the eight specialties.

Table 5 presents counts by discipline for all advanced degrees.

Table 6 shows additional detail on enrollments for master's and doctor's degrees in individual discipline specialties within the broad divisions reported in table 5.

Table 7 provides a count of enrollments for master's and doctor's degrees by institution.

Table 8 provides data similar to table 7 for students enrolled for first-professional degrees.

Each of the foregoing eight tables has counts by level of study, sex of students, and attendance status.

Table 9 presents enrollments for advanced degrees at the master's and doctor's levels, as well as at the first-professional level, by discipline division and specialty and by control and level of institution, for universities and other 4-year institutions.

In addition to the tables, the facsimile form in the appendix provides data for each cell reflecting totals for the aggregate United States. These data are summarized in tables 5 and 6.

Users of this report should be aware that there is a split of several professions between those with enrollments for first-professional degrees and those with enrollments for master's and doctor's degrees. This occurs in the discipline specialties of optometry, podiatry, law, and the theological professions. First-professional enrollments in these discipline specialties are clearly indicated and reported in part A of the survey form. The reader is cautioned that all *except* first-professional enrollments are included in these discipline specialties when they are shown in tabular presentations that display enrollments for master's and doctor's degrees. Researchers analyzing data from the health professions, as well as from law and theology, should examine all appropriate discipline specialties, in tables reporting data on master's and doctor's degrees as well as in tables reporting data on first-professional degrees.

INSTITUTIONAL DATA

Tables showing the number of degrees by discipline specialty and by institutional unit are available in a Xerox form for special studies. The supply is limited and copies are available only on request, on a first-come first-served basis, by writing to:

Curtis O. Baker, Survey Director
Higher Education Surveys Branch
National Center for Education Statistics
Room 3073, 400 Maryland Avenue, SW.,
Washington, D.C. 20202

COMPUTER TAPES

Persons interested in making additional groupings or analyses of the data may secure a computer tape (cost $94.00 or $120.00 depending on density), containing all data used in the preparation of this report. For further information write to or call:

Robert A. Heintze
Statistical Services Branch
National Center for Education Statistics
Room 3069, 400 Maryland Avenue, SW.

COMPARABILITY

In 1971, the *Students Enrolled for Advanced Degrees* series began classifying instructional programs in accordance with *A Taxonomy of Instructional Programs in Higher Education* (OE 50064-70).[5] When comparing data in the reports for 1971 through 1974 with earlier years, the reader should use the translation table in the Taxonomy for earned degrees conferred and adapt this table to the survey of students enrolled for advanced degrees (This Taxonomy and the translation table were reproduced in the 1971 edition of this publication.) Any comparisons with the earlier years should be made with extreme care, as entirely new categories were added in 1971 and many others reclassified.

In 1972 NCES began aggregating data by a method that groups institutional units by their level regardless of whether they are independent units or branches. This method was first used in the appendix tables in 1972 and first introduced into the main tables in 1973. This means that tables 1, 2, and 9 in this report are comparable with tables 101, 102, and 110, respectively, in the 1972 report, and comparable with tables 1, 2, and 9 in the 1973 and 1974 reports. There are no comparable tables in any earlier reports. Tables 3 through 8 in this report are comparable with tables 3 through 8, respectively, in the reports for 1971 through 1974.

---

[5] See footnote 2 on pg. 4.

---

1/ AS SPECIFIED IN THE INSTRUCTIONS AND LISTED IN PART A OF THE REPORT FORM.

2/ STUDENTS WHO HAD COMPLETED LESS THAN ONE FULL YEAR OF REQUIRED STUDY FOR AN ADVANCED DEGREE OR ITS EQUIVALENT IN PART-TIME STUDY PRIOR TO FALL 1975.

3/ STUDENTS WHO HAD COMPLETED ONE OR MORE YEARS OF REQUIRED STUDY FOR AN ADVANCED DEGREE PRIOR TO FALL 1975.

4/ CONTROL OF INSTITUTIONAL UNIT: 1, PUBLICLY CONTROLLED; 2, PRIVATELY CONTROLLED.
LEVEL OF INSTITUTION: 1 = UNIVERSITY; 2 = OTHER FOUR-YEAR; 4 = FOUR-YEAR BRANCH OF UNIVERSITY.

5/ INCLUDES DATA FROM AMERICAN BAPTIST SEMINARY OF THE WEST AT COVINA, CALIFORNIA.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
EDUCATION DIVISION
WASHINGTON, D.C. 20202

HIGHER EDUCATION GENERAL INFORMATION SURVEY

UPPER DIVISION AND POST-BACCALAUREATE ENROLLMENT BY DEGREE FIELD, FALL 1975

PLEASE READ INSTRUCTIONS BEFORE COMPLETING THIS FORM.

OMB NO. 51-R0568
APPROVAL EXPIRES: 6/30/76

1. INSTITUTION CODE NUMBER

2. DUE DATE

Not later than November 30, 1975

Each item on this page must be completed by all institutions. Please return the completed form either directly to Department of Health, Education, and Welfare, Education Division, National Center for Education Statistics, ATTN: Room 2164-HEGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, or to the HEGIS coordinator, if there is a HEGIS coordinator in your State.

3. NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT *(include city, State, and ZIP code)*

4. NAME AND TITLE OF RESPONDENT

5. TELEPHONE NUMBER OF RESPONDENT *(area code, local number, and extension)*

6. **PLEASE NOTE** THAT EACH INSTITUTION, BRANCH, CAMPUS OR OTHER ENTITY SEPARATELY CERTIFIED BY THE ACCREDITATION AND INSTITUTIONAL ELIGIBILITY UNIT OF THE U.S. OFFICE OF EDUCATION, WITH IT'S OWN FICE CODE, AND LISTED SEPARATELY IN THE **EDUCATION DIRECTORY - HIGHER EDUCATION,** SHOULD BE REPORTED ON A SEPARATE SURVEY FORM AND NOT INCLUDED OR COMBINED WITH ANY OTHER SUCH CERTIFIED UNIT. BRANCHES, CAMPUSES, AND OTHER ORGANIZATIONAL ENTITIES NOT SEPARATELY CERTIFIED SHOULD BE INCLUDED WITH THE APPROPRIATE INSTITUTION OR BRANCH REPORT. IF SUCH ARE INCLUDED IN THIS REPORT, PLEASE LIST THEM BELOW.

ARE DATA FOR THIS UNIT INCLUDED IN THIS REPORT?	NAME OF BRANCH AND/OR OTHER CAMPUS	ADDRESS *(city, State, and ZIP code)*
☐ YES ☐ NO		
☐ YES ☐ NO		
☐ YES ☐ NO		

DATA SHOWN ON THE FORM ARE FOR THE AGGREGATE UNITED STATES

7. IF THE EDUCATIONAL ORGANIZATION OR ENTITY COVERED BY THIS SURVEY REPORT IS PART OF A MULTI-CAMPUS INSTITUTION, OR PART OF A SYSTEM OF INSTITUTIONS, PLEASE ENTER THE NAME OF THE INSTITUTION OR SYSTEM BELOW.
IF NOT APPLICABLE, CHECK HERE → ☐

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

SURVEY COVERAGE

A. PURPOSE. The purpose of this survey is to ascertain the number of students enrolled this term at the upper-division level (junior and senior years) for baccalaureate degrees, and at the post-baccalaureate level for advanced degrees, by the students' fields of specialization, and a summary total of the numbers of post-baccalaureate students not enrolled for degrees.

B. SCOPE OF THE SURVEY. This is NOT a survey of all students, but of all students identifiable as upper-division undergraduate (juniors and seniors) and post-baccalaureate. First- and second-year undergraduates and students unclassifiable by level are not included.

1. Students to be INCLUDED in the report:

   a. INCLUDE IN PART A students enrolled for first-professional degrees in programs which require at least 2 academic years of previous college work for entrance and which require a total of at least 6 academic years of college work for completion. For example, include students enrolled for first-professional degrees in Law (LL.B. or J.D.), Medicine (M.D.), etc. as specified on the form. Students enrolled for degrees beyond the first-professional in these fields, or not enrolled for degrees, should be reported in Part B.

   b. INCLUDE IN PART B. All upper-division students, and all post-baccalaureate students not reported in Part A, including: all other students enrolled for master's degrees; for 6-year degrees such as Education Specialist (Ed.S.), Civil Engineer (C.E.), etc.; for doctoral degrees (Ph.D., Ed.D., etc.); and (on line 465 only) those enrolled for no degree at all but still identifiable as post-baccalaureate students.

2. Students to be EXCLUDED from this report:

   a. Students who, although known to be working on degree requirements, are not formally enrolled for study or dissertation this term.

   b. Students enrolled at a branch or extension center in a foreign country.

C. CLASSIFICATION OF MAJOR FIELDS OF STUDY: Classification of the major fields of study used in this survey has been presented in the following publication:

U.S. Department of Health, Education, and Welfare, Office of Education, National Center for Educational Statistics.
A Taxonomy of Instructional Programs in Higher Education.
By Robert A. Huff and Marjorie O. Chandler, OE–50064–70.
Washington: U.S. Government Printing Office, 1970.
Price: $ .45.

D. EXHIBIT ITEMS:

First-time students in fall 1975. Report the number of graduate students (in each discipline division) who have completed less than one full year of required graduate study and who enroll for an advanced degree for the first time in fall 1975. This number will be smaller than the total number of students in their first full year of required graduate study, because it is restricted to those in their first year who have not been enrolled for the advanced degree prior to the fall term 1975.

Doctoral candidates who have completed all but dissertation. Report the number of doctoral candidates who, as of the fall of 1975, have completed all course and other requirements for the degree except for the presentation and defense of the doctoral dissertation.

NOTE: Listings of data for individual institutions are regularly included in published reports of this survey.

See GENERAL INSTRUCTIONS and also the separate instructions provided for each of Parts A and B.

77

GENERAL INSTRUCTIONS

1. **Time period.** Report only those students enrolled as of the fall term of the current academic year (1975-76).

2. **Institutional coverage.** A separate report is requested from each branch or member of a system, as well as from each entirely independent institution and each "parent" institution. Please provide the information requested in item 6 on the cover page, which is intended to permit complete identification of the reporting unit. **Do not** include students enrolled by branches of your institution located in foreign countries.

3. **Consultation on problems.** If clarification of the definitions and instructions is needed, please consult the Survey Director, Mr. Curtis O. Baker, National Center for Education Statistics, Department of Health, Education, and Welfare, 400 Maryland Avenue, SW., Washington, D.C. 20202. You may reach Mr. Baker by telephone: (202) 245-8392.

4. **Returning forms.** Completed report forms should be addressed: Department of Health, Education and Welfare, Education Division, ATTN: Room 2164-HEGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202.

5. **Major changes.** If the number of enrollments you report in any area is significantly larger or smaller than the number you reported last year, it will be most helpful if you will include explanatory notes on the form or on an accompanying sheet of paper. **If students are enrolled in a discipline specialty new to your institution this year, please indicate this by circling the "line number" in column 3.**

6. Please verify your entries and check all the addition before returning the form.

7. SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR PARTS A AND B.

INSTRUCTIONS FOR PART A: STUDENTS ENROLLED FOR FIRST-PROFESSIONAL DEGREES IN SELECTED FIELDS

See also the statement of "Survey Coverage" and the "General Instructions" for the survey.

Part A is restricted to enrollments for the first-professional degree in each of the 8 professions listed there. A first-professional degree is defined herein as one which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are enrollments for first-professional degrees within the 8 professions other than those specifically named in connection with those professions.

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B. (*See "Survey Coverage," paragraph B.*)

In columns 4-7 report those students who have completed the previous college work (*pre-professional training*) required for admission to the professional school but who, prior to this term, had completed less than two semesters or three quarters of full-time study or the equivalent in part-time study in the professional school. Note that these students are identified by the amount of study completed prior to this term, rather than by the number of semesters or quarters in which they have been enrolled.

In columns 8-11 report students who have completed one or more years of required study. Report in these columns students who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study for the professional degree.

Classification of enrollment by attendance status: A **full-time** student is one whose academic load in terms of course work or other activity (*such as a thesis, research, or required teaching*) is at least 75% of the load normally required of such students. Time spent by teaching fellows should be included only if such teaching is performed as a requirement for a degree. Employment which is not a part of the prescribed activity for a first-professional degree or time spent on work required because of lack of undergraduate background should not be counted as time spent on academic requirements. A **part-time** student is one who is carrying an academic schedule of less than three-fourths the normal load.

New Fields: Please circle the line number (*column 3*) if you are reporting students enrolled in a discipline specialty new to your institution this year. (*See "General Instructions," paragraph 5.*)

Foreign Students: Please answer the question on foreign students at the end of Part A. Foreign students are defined as all foreign nationals studying at institutions of higher education in the United States, regardless of whether or not they plan to remain in the United States.

Add-Checks: Before submission, please verify that the TOTAL column (*column 12*) is the sum of columns 4-11 for each line entry. In addition, the TOTAL line (*line 14*) should show the sums of all entries in columns 4-12.
